

# Backpack

## DESCRIPTION

The LCPT Backpack allows you to keep your hands free and transport your polishers and products safely on your back.

Gone are the days of lugging around heavy duffle style bags with products and polishers scattered inside, causing possible damage to your machines. With the LCPT Backpack your polishers and products are securely held in their designated spots.

FEATURE	BENEFIT
Efficient	Free up your hands and carry all of your polishers and products safely on your back.
Durable Bottom Shell	Your polishers and products are protected from drops as well as allowing the backpack to stand upright so you can safely load and unload your tools.
Engineered Pocket System	Carry all of your detailing accessories safely inside. Two full size and one 3" polisher have designated spots and are securely held in place. You can also fit brushes, tools, pads, towels, and even your compound and polish.
Comfortable	The LCPT backpack is engineered and designed to be carried without fatigue. It features padded shoulder straps and multiple pads that rest the backpack easily on your back.
